WORK EXPERIENCE

Software Engineer - Open Dental Software - Salem, OR

February 2026 - Present

- Develop and maintain Windows client/server applications that connect to MySQL databases.
- Collaborate with engineers and support staff to design, debug, and improve software used by dental providers and patients.

Software Support Technician - Open Dental Software - Salem, OR

August 2025 - February 2026

- Resolves clinical workflow issues, system errors, and connectivity problems across core application features.
- Assists with software configuration, updates, service enrollment, and account-related requests.
- Consistently meeting performance benchmarks by following internal documentation, workflows, and support standards.

Software Engineer Intern - Zeek Interactive Inc. - St. George, UT

May 2024 - September 2024

- Developed and maintained Laravel and FilamentPHP applications.
- Collaborated with a team of engineers to deliver scalable software.
- Built and deployed RESTful APIs, enabling seamless integrations with third-party services.

QA Engineer Intern - Zeek Interactive Inc. - Huntington Beach, CA

May 2023 - September 2023

- Conducted automated and manual software testing.
 - Conducted cross-browser compatibility testing, ensuring performance across multiple platforms.
 - Identified and documented critical bugs, collaborating with developers to implement fixes.
-

PROJECTS

Lavender - Shift Work Sleep Disorder App

- Project Manager leading a team of five developers, overseeing development cycles and timelines.
- Integrated Google Firebase services (Authentication, Firestore, Cloud Functions) with a React frontend, automating sleep scheduling for shift workers.
- Partnered with a sleep psychology expert to ensure scheduling recommendations align with research-backed methodologies.

Portfolio Website - React/Next.js App

- Developed a clean, responsive portfolio website using modern web tools.
 - Strengthened fundamentals in component structure and page organization.
-
